The Game Changer.

Restaurant.

iVario live

# Countless tasks. One iVario.

Stove, pots, pans, deep-fat fryers, pressure cookers, bain-maries? Combined into one – the iVario. For boiling, pan-frying and deep-frying. Up to four times faster\*, using up to 40% less energy\*. Which is how the iVario replaces numerous conventional kitchen appliances. While still yielding delicious, individualised results. It's a must-have for both mise en place and à la carte preparations.

# Benefits.

## High food quality.

### Delivered consistently.

Cooking begins with an idea and needs to end with a delicious meal. Consistently. With the iVario, that's no problem. It implements specifications precisely. Handles products optimally. Reacts to even the slightest changes promptly. So you'll get your desired results over and over and over again.

## Save working time.

### While still accomplishing everything.

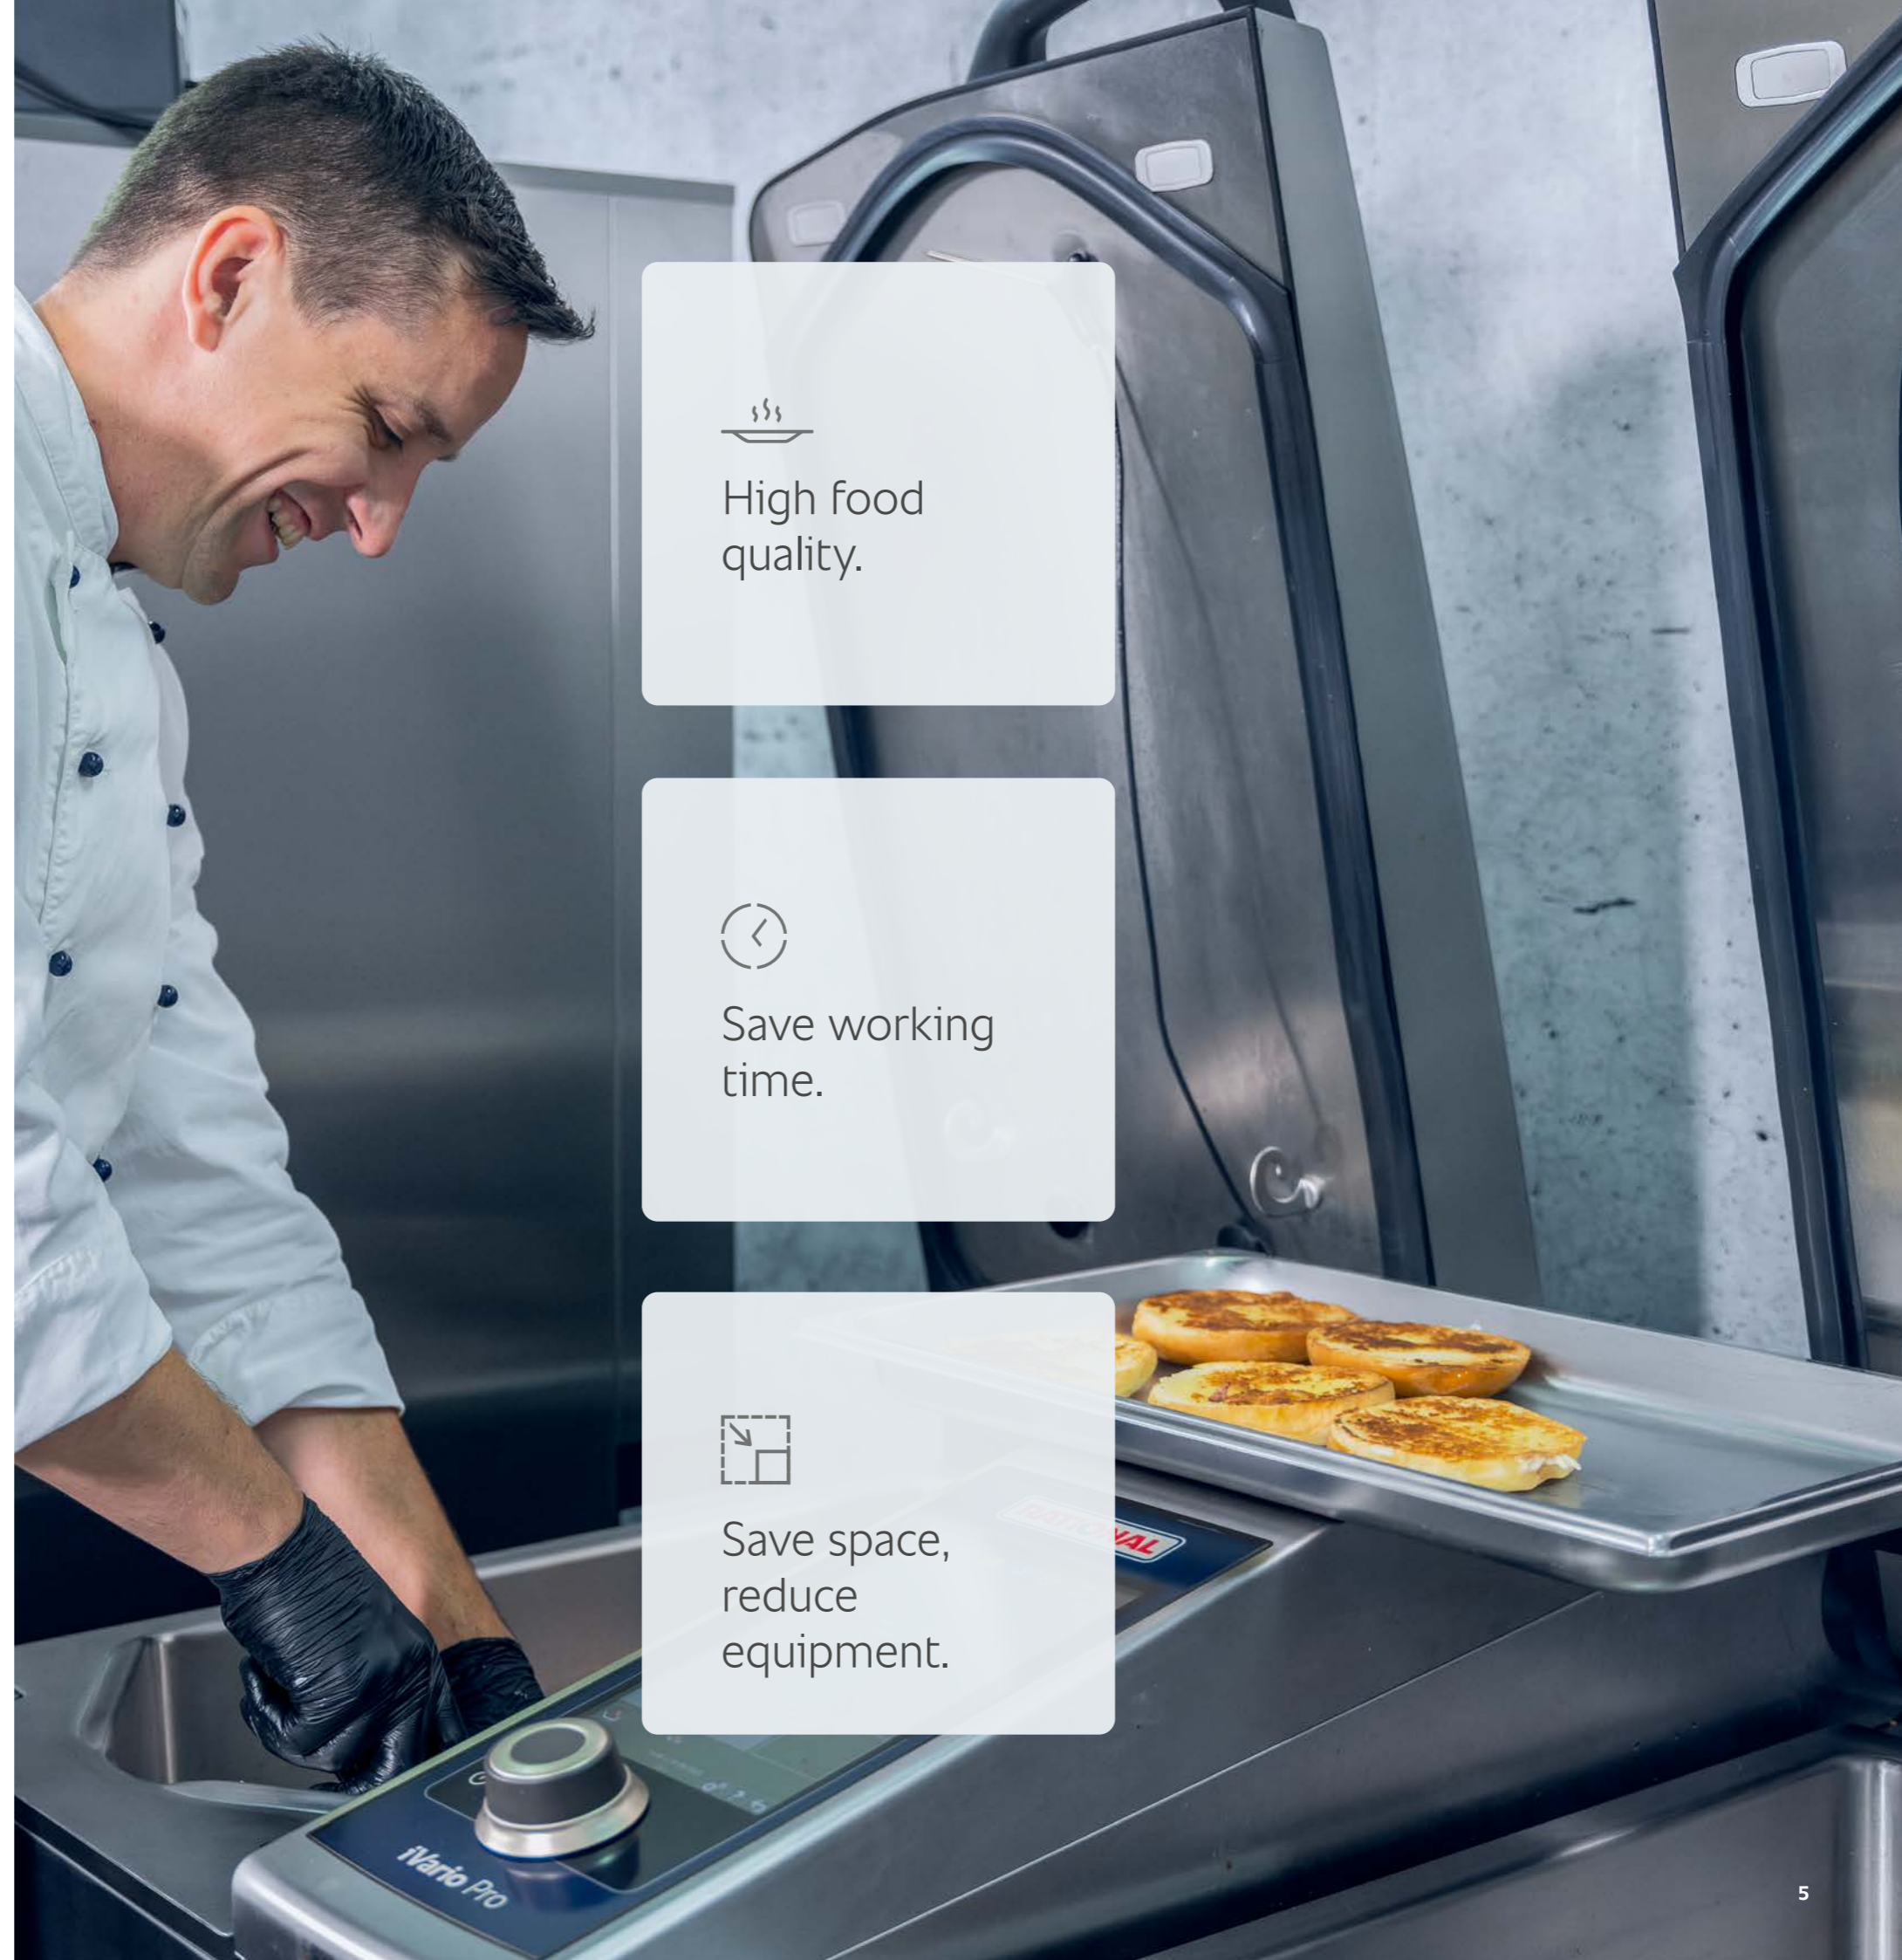

When it comes to working time, having an iVario changes everything. It renders many work steps unnecessary. Like watching food cook – even with delicate dishes. Like waiting, because the iVario is up to four times faster\*. Like scrubbing, because nothing sticks or boils over. Like routine tasks – no stirring required.

## Save space, reduce equipment.

### How does it do that?

In restaurants, the iVario demonstrates that it can handle the work of numerous appliances at once. It has mise en place mastered: boiling potatoes quickly, preparing roasts overnight, simmering rice pudding. It makes service a breeze: holding food warm just like a bain-marie, pan-frying to order, deep-frying in no time. And because the old appliances are no longer required, kitchen space is increased

## Speed & precision. Performance management.

Precise. Intelligent. Powerful.  
Performance management in the iVario:

- › A winning combination of ceramic heating elements and a highly responsive, scratch-resistant pan base
- › Uniform heat distribution from corner to corner
- › Exceptional speed and efficiency
- › Uses less electricity than conventional appliances
- › Reserve power for large quantities
- › Heats to 200°C in just 90 seconds
- › Boils 18 L water in 7.5 minutes

Benefits:

iVarioBoost 

## Monitoring and assistance.

# The intelligence of the iVario.

Continuously monitors and supports food production.

- › Easy to operate – almost no orientation required
- › Automatically adjusts cooking processes to fit each dish
- › Delivers your target results every time
- › Adapts to users' cooking habits
- › Only alerts you when you need to do something
- › Practical search assistant

Benefits:

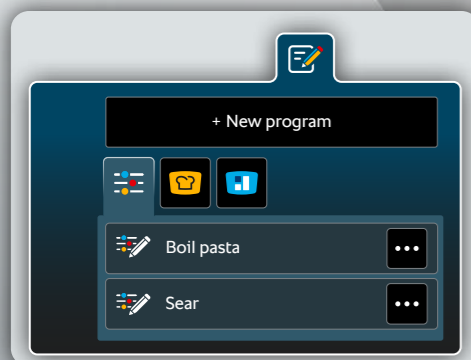

iCookingSuite 

## Monitoring and assistance.

# Your intelligent assistant in everyday kitchen work.

An operating concept that sets standards: Intuitive display with pre-installed cooking procedures. Touch screen and rotary dial controls allow quick, easy and efficient operation.

Preset, custom or manual cooking processes – the programming functions make it possible to tailor to individual work processes.

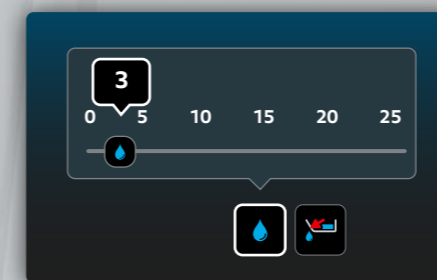

With MyDisplay, the user interface can be adapted so that only the functions that are currently required are displayed.

The integrated core probe's six measurement points detect product sizes and quantities, so every dish reaches the set core temperature – and the target results – precisely.

Intelligent regulation and interactive communication with the iVario cooking intelligence. Which adjusts cooking processes individually to each dish, adapts to users' habits and alerts them when something needs doing.

Automatic water inlet. At the touch of a button, measured to the exact litre. Whenever you need it. With integrated drain.

Decide on the next steps – continue cooking, boil down, hold or start a new load. These options can be selected as required while the cooking system is in operation. This makes handling simple and ensures food quality.

With ConnectedCooking, the digital kitchen management solution, create and distribute cooking programs, configure the screen view via MyDisplay, update unit software, document HACCP data. No matter where the cooking systems are.

**Multifaceted and flexible.**

Turn two into four.

Use iZoneControl to turn two pans into up to four iVario. For greater flexibility.

- › Divide pans into up to four zones
- › Flexibility in zone size, shape and position
- › Prepare different dishes in a single pan
- › Simultaneously or time-delayed, at the same or different temperatures
- › No monitoring and no extra kitchen equipment

Benefits:

iZoneControl

**Pressure cooking.**

Builds up pressure to take the pressure off.

The optional intelligent pressure-cooking function kicks things into even higher gear\*:

- > Soups, stews, casseroles, braised dishes and legumes cook up to 46% faster
- > Easy and safe to use
- > No loss of quality
- > Faster pressure build-up and release
- > No additional maintenance required (e.g., annual pressure inspections)

**Shorter cooking times**

Example: 15 kg Goulash in the iVario Pro 2-S.

	Cooking	Pressure cooking
Vegetable soup	72 Min.	48 Min. ⚡ 33%
Chickpeas	65 Min.	42 Min. ⚡ 35%
